

basic information

COMPOSITE DESCRIPTION

The investment objective of our Core Plus Fixed Income Composite is to maximize risk-adjusted total return with a combination of income and capital appreciation. The Composite seeks to achieve its objective by investing in a diversified Composite of investment-grade fixed income securities. The manager seeks to consistently outperform the benchmark, the Barclays Capital U.S. Aggregate Index, through the active management of interest rate positioning, sector allocation and security selection. "Core Plus" exposures for these Composites will consist of allocations to the U.S. investment grade bond market. Interest rate exposure is generally managed within a +/- 25% range of benchmark duration. Composite guidelines generally allow for an allocation of up to 25% to out-of-benchmark "Plus" sectors. These sectors can include, but may not be limited to, high yield, emerging markets, non-dollar and U.S. TIPS.

SECTOR ALLOCATION*

COMPOSITE	BENCHMARK
Agencies 2%	Treasuries 29%
Corporates 56%	Agencies 10%

Please review carefully the following information regarding the above performance. Cutwater Asset Management provides investment management and advisory services primarily to institutional investors. Cutwater Asset Management claims compliance with the Global Investment Performance Standards (GIPS®). For the GIPS presentation, please visit <http://www.cutwater.com/GIPS/COREPLUS.aspx>. Cutwater Asset Management has presented the above as additional information to Composite's GIPS compliant presentation and is meant to be reviewed along with the information provided in the compliant presentation. Please read the disclosure notes included in the GIPS compliant presentation, which are an integral part of this additional material. Please contact us to receive a complete list and description of Cutwater Asset Managements' composites. All information above is as of 3/31/2010. Returns are calculated in U.S. dollars. Net of fee performance returns are calculated by deducting the highest management fee paid by any account in the composite from the monthly gross composite return. Client returns will be reduced by investment management fees. Actual fees for new accounts are dependent upon size and any fee or fee schedule applied to existing or prospective clients is subject to negotiation. Investment involves risk, including the possible loss of principal. No assurance can be given that the performance objective of this strategy will be achieved. Past performance is not a guarantee of future results. No assurance can be given that the investment objective of the strategy will be achieved. Past performance is not a guarantee of future results. The benchmark, the Barclays Capital U.S. Aggregate Index, is an unmanaged market index. The volatility of the benchmark may be materially different from that of the Composite. Credit ratings referenced above are obtained from Nationally Recognized Statistical Rating Organization firms.
